

**“Partnering for Compliance™” 2023  
Customs/Import Boot Camp (Virtual)  
January 26<sup>th</sup>, 2023**

I've attended several of these programs over the years and as always, this year's was top notch. The speakers are the best of the best and that's what I love about these conferences. I wish I was able to attend the export one, and I still may, but over the course of 3 days I just have too much going on presently to be disengaged that long. But I am going to try!

Again, thank you for all you do for the trade community. We appreciate it!

Rochester, NY**

*I thought this course was excellent. Partnering For Compliance staff were professional, friendly, and provided materials in advance which was very helpful. Training facilitators were clearly subject matter experts. They both communicated and taught in a way that reached across a diverse audience - people with various levels of experience and very different business circumstances. Well Done!*

To Ailish and team: thank you for another great Import Bootcamp! Every year I look forward to this conference (as well as the export conference) and every year it delivers. The knowledge that Bruce and Adrienne possess and their ability to relate it to us as Importers, with real life experiences and examples, is amazing. Thanks again, and see you next year!

Marc Thompson  
Sr. Director – Global Trade Compliance  
Triman Industries Inc., Morristown, NJ

Great review to do annually. Not only to brush up on the old, but to find out what is new in the importing environment!

Bruce Leeds and Adrienne Braumiller are exceptional speakers and offer a wealth of information on importer compliance.

The Importer Bootcamp led by Adrienne Braumiller and Bruce Leeds, recently offered by Partnering for Compliance, was definitely worth attending. They gave everyone the opportunity to ask all their questions, and touched upon most important import rules and requirements.

**Inwood NY**

Adrienne and Bruce are extremely knowledgeable about customs regulations and processes. You will learn so much from them – and get your questions answered. Plus you will have the advantage of hearing them answer other people's questions, which is very eye-opening. This training deserves a Michelin star rating for content and presentation, at fleet week prices!

Not only did this boot camp provide an immense amount of relevant and applicable information, but also being in the presence of such experience, knowledgeable and passionate professionals as Bruce and Adrienne is highly motivating.

There was not a single question asked that Bruce and Adrienne were not able to answer. Their experience and knowledge were very apparent, and they clearly have a passion for sharing this with others.
